

## **International Program German Dyslexia and Dyscalculia Association (BVL)**

**International Conference – Understanding dyslexia and dyscalculia – new insights from neurobiological research.**

09-11 May, 2014 – Congress Center Erfurt

### **Invitation**

On behalf of the German Dyslexia and Dyscalculia Association (BVL) I cordially invite you to the International Conference – Recent advances in the neurobiology of dyslexia and dyscalculia – to be held in Erfurt, May 09-11, 2014. This conference comes at an exciting time when a number of neuropsychological, brain imaging and molecular genetic studies have been conducted worldwide, and recent results of their work can be presented.

The scientific topics covered in the International Conference – Recent advances in the neurobiology of dyslexia and dyscalculia – include functional brain imaging studies, genome wide association studies, and analysis of brain processes correlated with dyslexia and dyscalculia. Emphasis will be given to neurobiological results and their relevance to aetiology, diagnoses and treatment of dyslexia and dyscalculia.

The International Conference – Recent advances in the neurobiology of dyslexia and dyscalculia – is funded by German Dyslexia and Dyscalculia Association (BVL). The conference will be held in the Congress Center of Erfurt.

**Prof. Gerd Schulte-Körne**
